----

Are network cabinets compatible with server cabinets?

Our network cabinets seamlessly interface with server cabinets,creating a cohesive infrastructure that simplifies power distribution and monitoring. Compatibility with standard 19-inch rack units ensures that server rack cabinets and network racks can be installed side-by-side.

Why should you choose nVent network racks & cabinets?

nVent network racks & cabinets: the essential foundation for your IT infrastructure, optimizing cabling, security, thermal management and physical protection. Offering scalability and future compatibility, our portfolio features standard solutions as well as dedicated products for demanding applications.

What size server & network cabinets are available?

With the most extensive array of sizes ranging from 42-52RU,heights of 600mm to 800mm (23.62" to 31.5"),and depths of 36" to 54",providing server and network cabinets that meet any specific requirements.

What is a network rack & cabinet?

Network Racks and Cabinets are essential for any network. Cabinets are used for storing routers,patch panels,switches and a wide variety of networking equipment and accessories. Network cabinets support large,modular network switches by providing additional space for cable management and side-to-side airflow solutions.
