What is a lynx C 60kWh battery system?

GoodWe's Lynx C 60kWh outdoor battery system is tailored for small to medium-sized commercial and industrial (C&I) energy storage applications. Its modular design not only minimizes the impact of local failures but also allows for swift and straightforward module replacements.

What is the ge-f60 energy storage system?

Introducing the GE-F60, a high-performance energy storage system designed to meet diverse power needs. Powered by LiFePO₄ cells, it delivers a module energy of 5.12 kWh, a module nominal voltage of 51.2 V, and a module capacity of 100 Ah.

Does the lynx C 60kWh battery work with a goodwe hybrid inverter?

The Lynx C 60kWh battery system effortlessly integrates with the GoodWe hybrid inverter ET 15-30kW, ensuring seamless compatibility and optimal performance. Additionally, the innovative design allows for straightforward multi-cabinet parallel connections, offering a convenient pathway for system expansion.
Max. Charge /Discharge Current (A)

How much power does a battery pack have?

With 12 battery modules in series, the system nominal voltage hits 614.4 V, and the system energy is 61.44 kWh (55.29 kWh usable). It offers impressive power: rated DC power is 61.44, with a recommended charge/discharge current of 50 A, nominal 100 A, and peak discharge (2 mins at 25°C) of 125 A. Safety is prioritized:

Our plug-and-play 60 kVA battery solutions can be rapidly deployed alone or as part of a hybrid solution, where we combine generators with battery storage, automatically switching between ...

The purpose of this manual is to ensure safe operation during installation, ensure the quality of equipment
