What is a Longxing outdoor power cabinet?

LongXing outdoor power cabinet provides flexible size options, offers the ideal enclosure solution to build the whole base station inside.

What is a 60 kW PDP?

The PDP-60KW is a 60 kW power distribution panel. It is used to provide power to equipment requiring 120/208 VAC electrical power. The circuit breakers protect the cables from excessive current flow.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

How many receptacles does the PDP60 have?

The PDP60 has four (4) receptacles at 60-amp, 120/208 VAC, 3-phase. The output connector and receptacles are protected by appropriately sized circuit breakers.

Electrical equipment that distributes power has a heat loss due to the impedance and/or resistance of its conductors. This heat is radiated into the electrical room where the equip ...

These cabinets not only provide essential physical protection for various communication devices but also support continuous power supply through intelligent power management systems, ...

60KW PLC distribution cabinet The PLC intelligent power distribution box is equipped with PLC as the interlligent control unit along with monitoring sensors to reslize the external environment ...
