---

Scheduled for completion in 2027, this project stands as one of the largest energy storage initiatives in the UK and represents a major step forward in Europe's transition to ...

The Canadian-owned Spanish developer has lodged an application with the Australian federal government seeking approval to build a 720 MW/2.88 GWh solar-plus ...

The total contract value could exceed US\$500 million. A spokesperson for Peak Energy confirmed to Energy-Storage.news that a 720MWh project being delivered in 2027 is a ...

RES has secured a major operations and maintenance (O& M) contract from clean tech developer Elements Green for the 360 MW / 720 MWh Staythorpe battery energy storage ...

In November 2024, Infinity Power had announced that its consortium with Masdar and Hassan Allam Utilities (HAU) had inked two Power Purchase Agreements (PPAs) with ...

The other projects awaiting environmental permits include Endesa's 82.17 MWp Hel#237;ade Photovoltaic Plant, part of the planned "Pego Cluster" which will feature 168.6 MW of ...

With a 360MW peak power capacity and an energy storage capacity of 720MWh, the project has the capacity to power more than 95,000 homes for a full day and will have a ...

The parties have signed power purchase agreements (PPAs) for the two projects. In total, the projects will deliver 1.2GW of solar power and 720MWh of battery storage capacity.

Image: RayGen Australian energy major AGL Energy has acquired the Yadnarie solar thermal project in South Australia from Photon Energy, featuring 720MWh of long ...
