How will GPGC power the new power plant in Ghana?

GPGC will power the new power plant in Ghana using advanced upgraded power plants transported from Italy. These power plants will utilize General Electric Sprint Gas Turbines (LM6000PD and LM6000PF). Both turbines have recently been fully serviced by General Electric. Together, they will provide a total of 107mw additional capacity into Ghana's power grid.

How much power will General Electric provide to Ghana's power grid?

General Electric's recently serviced plants will add a total of 107mw into Ghana's power grid.

What makes CenPower the best independent power producer in Africa?

Cenpower's vision is to be recognised as the best Independent Power Producer in Africa and one of the best in the world in terms of safety, reliability, efficiency and environmental compliance. PRECISE Esprit De Corps (Teamwork) -! Cenpower's number of firsts: First licensed IPP in Ghana.

President Nana Akufo-Addo has inaugurated the Bridge Power Plant, a 200MW combined cycle power facility in Kpone, located in Greater Accra's Heavy Industrial Area. The ...
