What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Are APX enclosures NEMA indoor/outdoor telecom equipment cabinets made in the USA?

All APX Enclosures NEMA indoor/outdoor telecom equipment cabinets are made in the USA and backed by a 30-day simple return policy and a 1-year product warranty. If you're ready to get started, send us a message, and we'll assist you through each step of the design phase -- including drawings, prototype review and cabinet production.

Why do I need a telecommunications cabinet?

These cabinets also make it easy for technicians to reach the ports they need to expedite service. Patch panels: If your telecommunications system incorporates patch panels to connect and manage your incoming network cables, you can keep them safely stored in your cabinet.

Why should you choose NEMA Telecom cabinets?

Dust and debris: Our products keep dust and foreign objects from interfering with your critical electrical systems, helping you avoid damage and interruptions. Moisture and corrosion: All of our NEMA telecom cabinets stop the rain, sleet, snow and ice from getting in, eliminating issues and losses caused by corrosion.
