Discover all about Amsterdam's journey to becoming a global hub for renewable energy - marked by a series of milestones and modern-day innovations from wind and solar ...

As Europe pushes toward net-zero goals, Amsterdam has emerged as a testing ground for cutting-edge solutions - from football stadiums doubling as giant batteries to solar ...

Named Giraffe, the new battery installation is the largest in the city with a power capacity of 10 MW and an energy storage capacity of 47 MWh. Sustainably generated energy ...

MITEI's three-year Future of Energy Storage study explored the role that energy storage can play in fighting climate change and in the global adoption of clean energy grids. Replacing fossil ...

At present, Giraffe delivers power to the national grid, but GIGA Storage and the Port of Amsterdam are exploring opportunities to use the system locally in the future.

Located in the Westhaven of Amsterdam, the new battery installation--named Giraffe--is the largest in the city, with a power capacity of 10 MW and an energy storage ...

Join leading renewable energy and storage professionals in Amsterdam to explore the future of utility-scale and hybrid BESS solutions in the Netherlands. With 9 GW of energy storage ...

This research highlights how we currently utilize Amsterdam's roofs and how we can use them to improve useful energy generation to move toward climate neutrality.

Developed by GIGA Storage with financial support from Rabobank and Triodos Bank, and construction
