Can you use solar energy on a balcony in Belgium?

According to the officials,Belgium is making it easier for people to use solar energy. New plug-in solar panels,also called balcony solar panels,are now available. These small panels can be easily put up on balconies,windows,or small outdoor spaces. They mentioned that people who rent or don't have a roof or garden can now use solar energy.

When will solar panels be available for balconies in Belgium?

Belgium launches plug-in solar panels for balconies on April 17,with an 800-watt limit per household for safety,supported by Energy Minister Zuhail Demir.

Is Belgium making solar energy more efficient?

Energy Minister Zuhail Demir supports this with an 800-watt limit per household to ensure safety and efficiency. According to the officials,Belgium is making it easier for people to use solar energy. New plug-in solar panels,also called balcony solar panels,are now available.

Will Belgium legalize a balcony Solar System in 2025?

Belgium legalized balcony solar systems for the first time in April 2025,as the country targets a 40% increase in solar capacity by the end of this year. The Enphase IQ Balcony Solar System will help more people participate in the energy transition,supporting greater energy independence across Europe.
