What are pre-wired cabinets?

Our pre-wired cabinets minimise the time required to install batteries and inverter equipment on-site. Ranging from small battery enclosures to cabinets, including gear trays you can pre-build and test in the workshop, simplifying site installation. Suitable for protected environments, our Rack cabinets make the most of the available floor space.

How many inverter/chargers can be installed in a cabinet?

It is suitable for placing up to Three(3) inverter/chargers in series or parallel configurations. The cabinets are sized to enable mounting of all inverters and charge controllers in the same panel. This makes the installation much safer, whilst keeping all equipment out of sight and protected from the elements.

Why do I need a cabinet for my inverter & charge controller?

The cabinets are sized to enable mounting of all inverters and charge controllers in the same panel. This makes the installation much safer, whilst keeping all equipment out of sight and protected from the elements. The cabinets are made of aluminium, making them easy to position and providing a long service life.

Can a Marshall solar & energy inverter be installed in the same enclosure?

The flexible design is suitable for a range of popular inverters to be installed in the same weatherproof enclosures with PowerPlus Energy batteries. Marshall Solar & Energy is a Tasmanian owned & operated business.
