What is a dust-tight enclosure?

These dust-tight enclosures offer indoor protection against airborne or settling dust, dirt, and lint. They also shield against drips or light splashing of liquids like water, oil, and coolants. Steel dust-tight enclosures are more durable and corrosion-resistant when compared to aluminum enclosures.

Are Tripp Lite cabinets PCI compliant?

All of Tripp Lite's Cabinets are PCI-Compliant. Sturdy steel panels surround all sides of equipment, preventing unauthorized access to networking devices and ensuring the physical security of equipment that processes, stores and transmits credit card data. What is an IEC rack enclosure rating?
