PVC ELECTRICAL FITTINGS For more than 40 years, Kraloy has been a pioneer in the field of PVC conduit fittings. As the first UL approved manufacturer of PVC fittings, Kraloy's rich ...

A drivetrain is an essential part of the wind turbine as it helps in converting rotational energy of the wind turbine's blades into electrical energy. A drivetrain consists of a ...

Having all of those moving parts makes the gearbox one of the highest- maintenance parts of a wind turbine. One alternative is to use a "direct drive" generator that can generate ...

The terms "wind energy" and "wind power" both describe the process by which the wind is used to generate mechanical power or electricity. This mechanical power can be used for specific ...

Attractive and easy to install, the VEX Series combines contemporary styling with quality LED illumination. The optional patent pending Numeric Indicator option (G2-NI) provides additional ...

The wind turbine drive system is affected not only by random wind loads for a long time but also by the electromagnetic torque of the generator. Exploring the coupling behavior ...

The Wind and Water Power Program sponsored the workshop as part of its larger efforts to reduce the cost of energy produced by wind turbines. Figure 1. Conventional gearbox ...
