How will the Gothenburg battery factory benefit the environment?

In a unique collaboration between the city and the battery factory, purified wastewater from Gothenburg residents will be used for cooling during production. The heated water will then be reused in the district heating network, benefiting both the environment and the city's residents.

What is the energy storage industry?

Energy Storage forms part of the Energy industry, which is the 14th most popular industry and market group. If you're interested in the Energy market, also check out the top Energy & Cleantech, Renewable Energy, Recycling, Oil & Gas or Energy Efficiency companies. Grid-scale energy storage by organic flow batteries

What is Battery Centre Gothenburg?

On 24 January, an education hub, Battery Centre Gothenburg, will open at Lindholmen Innovation District. Its mission is to provide a comprehensive solution for competence provision for the battery and automotive industries, complementing existing learning environments.

Why are Sweden's oil refineries investing so much?

At the same time, other industries, both in Sweden and internationally, rely on their products for their production," says Hans Larsson, investment advisor for green tech at Business Region Göteborg. Most of Sweden's oil refining capacity is also located in Gothenburg and West Sweden. The refineries are investing heavily to lead the transition.
