Does Arimon have a backup battery cabinet?

Arimon UPS backup battery cabinets offer breaker or fuse protection up to 800 Amps. UPS circuit breaker options include auxiliary contacts, undervoltage release (UVR) and shunt trip circuit breakers. All battery cabinets ship factory assembled and fully tested.

What are Arimon battery cabinets made of?

All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors. Arimon UPS backup battery cabinets offer breaker or fuse protection up to 800 Amps.

What is a CPI network cabinet?

CPI's network cabinets provide a robust foundation for any data center, delivering secure enclosure and organized cable pathways. Engineered with precision, each cabinet supports high-density equipment while maintaining accessibility for maintenance. The design aligns with industry standards to ensure compatibility across a wide range of devices.

Why should you choose CPI data center cabinets?

Thermal efficiency is a core focus, with built-in containment options that support the demands of modern data center cabinets. The cabinets can be paired with CPI's air containment and liquid cooling solutions for environments that require aggressive heat mitigation.

The first place you'd want to start data center normalization is the racking systems and containment solutions. Starting with flexible, easily installed, adaptable and pre-configured ...

Alpine Power Systems engineers and builds customized battery cabinets and enclosures for critical power applications, for utility, telecom, CATV, data center and other applications.
