House everything you need to run your business or edge computing location in a neat, enclosed cabinet. EdgeRacks eliminate the need for messy IT or networking closets. Available with ...

These cabinets face extreme shock, vibration, temperature swings, moisture, and electromagnetic interference (EMI), all while protecting densely packed electronics. This four-part white paper ...

Our edge systems are engineered to survive vibration, dust, heat, and constant use. Fanless designs mean fewer failure points and lower maintenance. Deploy Anywhere. From control ...

Keep critical industrial systems online in high ambient heat. Xtreme Power's high temperature industrial UPS line uses LiFePO₄ batteries for safe, long life backup power up to ...

Engineered for high-performance computing at the edge, ARBOR's rugged fanless systems with Intel, NVIDIA Jetson, RTX, and MediaTek deliver reliable AI acceleration.

By plugging in rugged, modular industrial edge computers, the semiconductor giant was able to get their automation plans in line with what modern fabs really needs : ...

OMARA Information Technology is a high-tech enterprise specializing in the research and development of industrial embedded application systems. The company has rich industry ...

Explore how outdoor telecom cabinets support edge computing deployments, improve network performance, and reduce latency by housing localized data processing equipment.

Our award-winning, energy-efficient, high load-capacity server cabinets are engineered for next-generation

data center infrastructure. Compact and reliable, our wall-mount cabinets support ...

Why Industrial Applications Rely on M.2 2280 High-Temp SSDs for Stability and Speed In the world of industrial automation, edge computing, and embedded systems, storage ...

EJER - your trusted partner for advanced drying storage and baking solutions! We specialize in providing high-quality Dry Cabinets, N2 Cabinets, and Drying Ovens designed to meet the ...

Introduction High-density IT server racks - including telecom installations, industrial control systems, and edge computing infrastructure - concentrate significant heat ...

EDGE 5 Micro Data Centre is an air conditioned server rack that facilitates edge computing. In this digital age with more devices connecting to the internet, sending and receiving data, there ...
