How much money does a battery project in Bulgaria get?

Be the first one to comment on this article. Developers of 82 standalone battery projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies.

How many MWh will a battery energy storage system deliver?

The selected projects will deliver a total usable battery energy storage system (BESS) capacity of 9,712.89 MWh, the Ministry of Energy said on April 17, more than three times the minimum target of 3 GWh originally set by the tender. The deadline for submission of standalone battery storage project proposals was December 5, 2024.

How much will Bulgaria spend on battery storage projects?

Bulgaria will finance 82 standalone battery storage projects worth over 1.15 billion leva (\$675 million) under its EU-funded procurement exercise named RESTORE.

How many projects have been submitted to the Bulgarian Ministry of energy?

The Bulgarian Ministry of Energy announced on December 6 that it has received 151 project proposals worth nearly BGN 5 billion, which far exceeded the available funding of BGN 1.154 billion. Of the submitted proposals, 118 projects totaling BGN 1.6 billion were shortlisted.

The largest battery energy storage system (BESS) project online in Bulgaria is a 25MW/55MWh system commissioned by IPP Renalfa in June 2024 while a 5.1MW/18.7MWh ...

The battery storage system on Bulgaria's Black Sea coast will enhance grid stability and renewable energy integration. Shanghai Sermatec Energy Technology Co., Ltd. ...

From Bulgaria's sun-drenched Black Sea coast to the energy heartland of Eastern Europe, Chinese energy storage technology is playing an increasingly vital role in reshaping ...

In terms of BESS infrastructure and its development timeline, China's BESS market really saw take of only recently, in 2022, when according to the National Energy Administration ...

The Bulgarian government considers the latest battery storage tender as part of its larger efforts to increase the share of renewable energy generation, especially wind and solar, ...

The selected projects will deliver a total usable battery energy storage system (BESS) capacity of 9,712.89 MWh, the Ministry of Energy said on April 17, more than three ...

The battery energy storage system is the first phase of a 315 MW/760 MWh system that is being developed alongside 238 MW of solar under Bulgaria's largest hybrid power ...

China's energy storage technology has made another breakthrough in the international market. Shanghai Cairi Energy Technology Co., Ltd. recently won the bid for the ...

Chinese company Shanghai Sermatec Energy Technology Co. will supply batteries for one of the largest energy storage systems in Bulgaria. The company announced that the ...
