What is a Vertiv EnergyCore Battery Cabinet?

COLUMBUS, Ohio-- (BUSINESS WIRE)--Meeting the urgent need for solutions supporting high-density computing in increasingly crowded data center facilities, Vertiv (NYSE: VRT), a global provider of critical digital infrastructure and continuity solutions, today introduced Vertiv(TM) EnergyCore battery cabinets.

How does the integrated battery management system work?

The integrated battery management system is powered by the Vertiv EnergyCore batteries, removing the requirement for an external power source and simplifying installation.

How many Vertiv EnergyCore cabinets does a Liebert ® apm2 need?

The 250kW Vertiv Liebert APM2 requires just a single Vertiv EnergyCore cabinet, while the 500kW Liebert ® APM2 can be supported by two Vertiv EnergyCore battery cabinets at five minutes end of life.

Does Vertiv have remote battery monitoring?

Remote battery monitoring is available via Vertiv(TM) Alber(TM) Battery Xplorer Enterprise. "The proliferation of artificial intelligence and other high-performance computing applications is putting a premium on the ability to deliver more power in smaller, hotter spaces," said Milind Paranjape, vice president of energy storage at Vertiv.
