With giants like Terna planning 71GWh of grid-scale storage by 2030 [5], Italian smart energy storage manufacturers are having their "dolce vita" moment. But who's leading ...

The European Commission has approved, under EU State aid rules a EUR17.7 billion Italian scheme to support the construction and operation of a centralised electricity storage system.

Batteries are found to be the preferable energy storage solution in the first part of the energy transition, while the hydrogen storage starts to be convenient from about the year ...

Energy Vault and Carbosulcis, a coal mining company owned by the Autonomous Region of Sardinia, have announced plans to develop a 100MW project in Sardinia, Italy that ...

The hybrid energy storage system utilizes Energy Vault's new EV0(TM) modular pumped hydro gravity storage technology plus lithium-ion batteries, and powered by ...

The proposed system combines pumped hydro energy storage technology with Energy Vault's gravity energy storage technology to repurpose the site's underground features as a retired ...

Gravity energy storage systems an option at South Africa's coal power GESS technology is also flexible in its power -to-energy ratio, being able to deploy any configuration of megawatt and ...

Energy Vault and coal mining company Carbosulcis S.p.A. have announced plans to develop 100 MW hybrid energy storage facilities at the Nuraxi Figus coal mine in Sardinia, ...

The MIT Energy Initiative's The Future of Energy Storage report is the culmination of a three-year study
