What can a 3KW solar panel power?

A 3kW solar panel system can power the average three-bedroom household, on a typical day. This amount of electricity can power a washing machine, tumble dryer, electric shower, hairdryer, oven, toaster, microwave, TV, games console, laptop, and light bulbs for certain amounts of time.

How much does a 3KW Solar System cost?

How much does a 3kW solar panel system cost? A 3kW solar & battery system costs around €9,640 to buy and install. That includes seven solar panels, each with a 450-watt peak power rating, and a 5kWh battery.

How many kWh can a 3KW Solar System run?

A 3kW solar panel system can run the average three-bedroom household, on a typical day. It can generate 7kWh of solar electricity per day, on average. This amount of electricity can power all of the devices below for the stated amount of time, according to Centre for Sustainable Energy data - with a little extra energy left over.

Is a 3KW solar panel system worth it?

A 3kW solar panel system is absolutely worth it, so long as it's properly sized for your household. If so, it'll benefit you in multiple ways. You'll cut your electricity bills by 82%\*, on average, if you use one of the best export tariffs, which pays you for the excess solar electricity you send to the grid.
