What is an outdoor NEMA 3R Battery Cabinet?

Outdoor NEMA 3R modular design easily expands and can accommodate any configuration of batteries and DC power equipment. This becomes a great alternative for substations with limited interior space allowing for consolidation of your DC power system. HindlePower's Outdoor Battery Cabinet takes a proactive approach to hydrogen mitigation.

What is a typical battery cabinet?

A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure. There are many different options and accessories available, making every system unique and built to your site-specific needs.

What is a hindlepower Battery Cabinet?

HindlePower's Battery Cabinet is designed to maximize DC system performance and battery life, saving YOU time and money. The EPIC series battery cabinet offers a NEMA 3R and NEMA 1 modular design, with built in intelligence, will safely house any combination of batteries, chargers, DC distribution, and/or other ancillary equipment.

Is hindlepower outdoor Battery Cabinet certified?

HindlePower's Outdoor Battery Cabinet is certified to IBC 2012, CBC 2013, and IEEE 693 to the highest levels. See our certification document [here](#) for more information. Outdoor NEMA 3R modular design easily expands and can accommodate any configuration of batteries and DC power equipment.

Explore StackRack's modular battery systems for residential, commercial, and utility-scale projects. Offering expert design, engineering and project management.

Get your battery charging cabinets from the leading fabricator in the Pacific Northwest and Western Canada.
