What are the benefits of solar panels in Delhi?

Households can claim up to INR1.08 lakh in total subsidies, while commercial and industrial users benefit from up to INR1/kWh in GBIs and 50% savings on power bills. The state has also enabled group net metering and online applications via the Delhi Solar Portal to drive faster adoption. Embrace the Future with a Roof Made of Solar Panels!

Does Delhi have a solar policy?

Delhi launched its solar policy in 2016, and in 2023, introduced an updated solar roadmap with the goal of achieving 6,000 MW of installed capacity by 2025. Both policies promote solar adoption across residential, commercial, and industrial sectors through capital subsidies, generation-based incentives, and simplified net metering.

How will Delhi's new solar system affect electricity costs?

In April 2025, the Delhi assembly introduced a plan to install a 500 kW rooftop solar system within 100 days. Currently, the assembly has two 100 kW solar plants. The proposed expansion is expected to cut electricity costs by approximately Rs 1.5 million per month.

What is Delhi's New Solar Policy?

The city's new solar policy envisions "every rooftop as a power plant". The minister highlighted the government's continuous efforts to reduce pollution by promoting electric vehicles and expanding EV charging infrastructure. He said that Delhi aims to electrify 80% of its public transport fleet by 2030.

Households can claim up to INR1.08 lakh in total subsidies, while commercial and industrial users benefit from up to INR1/kWh in GBIs and 50% savings on power bills. The state has also enabled ...

In April 2025, the Delhi assembly introduced a plan to install a 500 kW rooftop solar system within 100 days. Currently, the assembly has two 100 kW solar plants. The proposed ...

Install Solar PV System on your rooftop in Delhi NCR with BigWit Energy using only Tier 1 Solar panel and customised unique solar super structure. EMI plans and PPA options available for ...

The Delhi Electricity Regulatory Commission (DERC) has waived application fees for feasibility analysis and registration fees for rooftop solar systems up to 10 kW for domestic ...

A 80 kW rooftop solar power plant installed at Uttara Guruvayurappan Temple, Mayur Vihar, Delhi, featuring Luminous 80 kW three-phase inverters and 580 Wp Vikram Solar ...

Exolar Energy Pvt. Ltd., one of the fastest growing energy startups in Delhi NCR, declares the installation of an 80 kW rooftop on-grid solar power plant at the sacred Uttara ...

New Delhi's solar policy sets 6,000 MW of solar capacity as its target by 2025. This will increase Delhi's share of solar energy from 9% to 25% in three years.

Explore Delhi's 2025 solar energy statistics--installed capacity, rooftop growth, annual generation, challenges, and insights for consumers and developers.
