-----  
How many data centers are there in Southeast Asia?

Southeast Asia hosts around 290+existing data centers,with countries like Singapore,Malaysia and Indonesia having a strong presence in the region. Singapore dominates the existing market with a power capacity of more than 780 MW,driven by major players like Equinix,ST Telemedia Global Data Centres,Keppel DC REIT and Digital Realty.

What is an indoor Telecom cabinet?

Indoor telecom cabinets are designed for controlled environments like data centers,server rooms,and office spaces. These enclosures provide a secure and organized space for housing telecommunication equipment. Since they are used indoors,they do not require extensive weatherproofing.

Which country dominates APAC's data center market?

Australia dominates APAC's upcoming data center market with almost 20% of the total power capacity. Almost 60% of the existing Rack capacity is concentrated around Japan,Australia and India. Airtrunk is the largest data center Operator in the region, followed by NTT Communications and Equinix.

How much does a large telecommunication cabinet cost?

Large indoor cabinets are designed for extensive telecommunication systems in controlled environments like data centers. These telecom racks provide ample space for organizing equipment and often include advanced cable management and cooling systems. Prices for large indoor cabinets range from \$2,000 to \$10,000or more.
