What is a rechargeable solar battery system?

Our rechargeable solar battery systems are designed to keep you on the grid during normal service times while providing reliable backup power when grid power isn't available. Storing excess energy from your solar company's system can help you manage power consumption and save money by using stored power during peak pricing hours.

What are the best solar battery boxes and enclosures?

Unbound Solar offers durable solar battery boxes and enclosures that are ideal for off-grid or grid-tie with battery backup systems. Browse our selection today. Our Solar Battery Guide will help you size your battery bank properly and keep things running smoothly by ensuring a well-designed system that protects your batteries.

What is a portable solar battery charger?

Whether you're backpacking in the Himalayas or working in your backyard, a portable solar battery charger offers a vast supply of power that you can easily fold up and carry with you.

Should you use battery storage with solar panels?

Pairing your battery storage with solar panels ensures you have reliable solar power available, even during a natural disaster or peak hours when electricity demand is high. For those looking to back up their home, proper placement is crucial to optimizing efficiency and ensuring seamless energy transition when needed.
