How much does a 10kW Solar System cost in India?

The 10kW solar system price in India ranges between INR 4.5 lakhs and INR 7 lakhs. This price range includes the solar panels, inverter, and other components required to set up the system, but it does not include the cost of batteries for off-grid systems.

How much is a 10 kW solar system subsidy in India?

Ans. The central government offers a subsidy of Rs. 78,000 to homeowners installing a 10 kW on-grid solar system in India. In UP, the state government offers an additional Rs. 30,000 subsidy, taking the total subsidy amount to Rs. 1,08,000 for a 10 kW solar system.

How does a 10kW Solar System work in India?

In India, if you have an on-grid 10kW solar system, you may qualify for net metering. This allows you to sell the excess electricity generated by your system back to the grid, earning credits that can be used to offset future electricity bills. Switching to solar power reduces your carbon footprint and contributes to a cleaner environment.

How much does an off-grid solar system cost in India?

The price of a 10kW off-grid solar system in India ranges from INR 6 lakhs to INR 8.5 lakhs, as it includes the cost of solar panels and batteries for storage.
