This ground-breaking production facility, situated in Subotica, Serbia, is spearheaded by ElevenEs and supported by EIT InnoEnergy, and is revolutionising battery ...

With an investment of EUR 700 million planned in two phases, ElevenEs aims to establish Serbia and the Western Balkans as a key hub for LFP (lithium-iron-phosphate) ...

The Republic of Serbia could be a technological leader in LFP battery production in the whole world outside of China, because it has a chance to become the first in Europe to mass ...

Lithium iron phosphate (LiFePO₄) battery packs are a type of rechargeable battery known for their safety, longevity, and environmental friendliness. They operate by transferring lithium ions ...

ElevenEs's cutting-edge battery cells enable efficient cell-to-pack solutions, minimizing cost-per-cycle and increasing energy density on a battery pack level - powering electric cars, buses, ...

Battery storage startup ElevenEs said its manufacturing facility in Serbia is fully operational. It is the first lithium iron phosphate (LFP) battery cell factory in Europe, it added.
