Will Serbia develop a large-scale solar plant?

The Serbian government has called for the development of a spatial plan for six large-scale solar plants with a cumulative capacity of 1 GW that will be colocated with two-hour battery energy storage systems with a power output of at least 200 MW.

Does Serbia have a solar project?

Last April,Serbia switched on its largest utility-scale solar project,the 9.9 MW DeLasol PV project in Lapovo,central Serbia. Presently,the country is looking to introduce new renewables-related regulation. Under the proposed changes to the Law on Energy,Serbia is looking to abolish net billing and net metering by the end of 2026.

Why should Serbia invest in solar power plants?

Located throughout the country, these solar power plants will help Serbia improve energy security, avoid expensive energy imports, and achieve electricity independence at an affordable price. The modernization of the EPS and renewing Serbia's Energy Generation Portfolio will have a lasting impact on communities throughout Serbia.

Who will install a solar power plant in Serbia?

Mid last year,the government embarked on a lookout for strategic partners who would install the facilities,including 1,000 MWac (1,200 MWdc) of solar plants and at least 200 MW of battery storage. The facilities will be handed over to to state-owned power utility Elektroprivreda Srbije(EPS),which acts as a sole owner and investor.

Quality Energy Storage Cabinet Manufacturer 50kwh To 2mwh Industrial Commercial BESS Energy Storage System Container Solution for sale, Buy Energy Storage Cabinet products ...
