---

Arrowleaf is Ormat's first hybrid solar-plus-storage facility, marking a significant milestone in the Company's development and strategic growth plans. The hybrid Arrowleaf ...

Ormat leveraged its core capabilities in the geothermal and REG industries and its global presence to expand the Company's activity into energy storage services, solar ...

Power company AES Corporation has completed construction of the 1,000MW Bellefield 1 project in Kern County, California. The overall project includes 500MW of solar and ...

The Eland Solar-plus-Storage Center project alone will generate enough power to serve more than 266,000 homes in Los Angeles and push the city's clean energy share above ...

This resource aims to provide an overview of program and policy design frameworks for behind-the-meter (BTM) energy storage and solar-plus-storage programs and examples from across ...

SACRAMENTO - The California Energy Commission (CEC) on Wednesday approved the Darden Clean Energy Project (DCEP), the first to be permitted under the state's ...

Solar power and battery storage are essential for Southern California's energy resilience and sustainability. Together, they ensure a reliable energy supply during outages or ...

Many utilities have embraced gas, or promoted restarting closed coal or nuclear plants, but that overlooks the cheapest and fastest-to-build option - solar energy combined ...

Developed, owned, and now operated by Arevon, the two-phase Eland Solar-plus-Storage Project is capable of supplying 7% of Los Angeles's electricity -- energizing and ...

For solar-plus-storage--the pairing of solar photovoltaic (PV) and energy storage technologies--NLR researchers study and quantify the economic and grid impacts of ...

AES Corporation has reached a significant milestone in advancing renewable energy with the completion of the first phase of the Bellefield Project, which is set to become ...

AES just completed the first half of Bellefield, which will become the largest solar + storage facility in the US. The 1,000-megawatt (MW) Bellefield 1 project in Kern County, ...
