Are solar and storage a necessity in Puerto Rico?

Rúa-Jovet said blackouts have become so routine that solar and storage are now a necessity in Puerto Rico and demand is unlikely to be slowed by changes in federal policy -- some of which were enacted through the tax code, which has limited impact on the territory.

Does Puerto Rico have solar?

The Puerto Rico Energy Public Policy Act of 2019 codified the role of solar and storage in the island's energy system and set a 100% renewable energy target by 2050, with interim targets on the way. Today, Rúa-Jovet said there are about 175,000 households with solar, and at least 160,000 of those also have storage.

Does Puerto Rico have a resilient energy system?

"That kind of shifted, in people's minds, the thinking on energy and the value of resiliency, and the importance of just basic energy," Rúa-Jovet said. The Puerto Rico Energy Public Policy Act of 2019 codified the role of solar and storage in the island's energy system and set a 100% renewable energy target by 2050, with interim targets on the way.

Does Puerto Rico have a power grid?

Miguel J. Rodriguez Carrillo via Getty Images Nearly every night for the past two weeks, Puerto Rico's grid operator has called on tens of thousands of batteries scattered across the island to overcome energy shortfalls and help deliver power to approximately three million residents -- and it's working.
