What is solar & storage Live London?

Solar & Storage Live London showcases global solar and energy storage solutions alongside complementary products and services for residential, commercial, industrial and large-scale utility projects.

Why are UK businesses turning to solar power paired with battery storage?

As energy prices fluctuate and sustainability becomes a top priority, more and more UK businesses are turning to solar power paired with battery storage to cut costs, reduce carbon emissions, and gain greater energy independence.

What is commercial solar battery storage?

Commercial solar battery storage systems let you store excess solar energy generated during the day and use it later--whether that's during evening peaks, grid outages, or periods of high electricity prices. This approach, known as solar time-shifting, can dramatically reduce your energy bills and increase your site's resilience.

Do commercial battery storage systems work with commercial solar panels?

A strong ESG score is a great sales and marketing tool to attract more customers. The commercial battery storage systems are designed to work seamlessly with your commercial solar panels. Once installed, the system will work without interruption or needed maintenance from yourself.
