---

Discover how leading utilities and developers are investing in intelligent substations to future-proof their operations: Download our white paper for insights on best practices, technical ...

This is why our new secondary substation project came to life: it's a form of infrastructure that combines technology and design to reduce its impact on the local area and ...

This box-type substation is not merely a power conversion device; it serves as a central hub for achieving stable, efficient, and intelligent operation of photovoltaic power plants.

The extension of a classic rectifier substation to include intelligent functions is being developed and demonstrated as part of the GUW+ joint. . Construction work on the first GUW+ has ...

The substation is the hub of the SCADA network, and contains some of the most critical devices, equipment and applications at the solar PV plant. Integrating these substation devices into the ...

Objectives &#167; Development and implementation of monitoring and automation equipment in secondary substations for safe, reliable and economical operation of distribution grids

We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services..

The Chinese New Energy Special Box Change is an advanced prefabricated substation specifically engineered for renewable energy applications such as solar farms and wind power ...

Alongside solar power, the airport employs various other sustainable practices, including CO2-neutral district

heating, using approximately 450 electric vehicles, geothermal ...

Abstract The invention relates to a low voltage cabinet used for a box-type solar energy substation provided with a small capacity transformer. The low voltage cabinet comprises a cabinet body. ...

With primtech, we provide the solutions to streamline every stage of the substation lifecycle. Together, these technologies support sustainable and efficient power engineering and help ...

Our main products include 10-35kV outdoor disconnect switches, pole-mounted vacuum circuit breakers, compact substations, solar PV pre-installed cabins, energy storage systems, ...
