What warranties does a solar system have?

Today, most home solar energy systems include three primary coverages: product warranties, performance guarantees, and installation warranties. 1. Product warranties A solar product warranty covers the physical components of your system, such as the panels, inverters, or batteries.

What warranties do qcells & REC panels have?

Qcells - Qcells panels have a 12 to 25-year product warranty and a 25-year performance warranty. REC - REC panels have a 20-year product warranty and a 25-year power warranty. REC offers an upgraded package with a 25-year labor, product, and power warranty. Silfab - Silfab offers a 30-year linear performance warranty and a 25-year product warranty.

How long does a solar installation warranty last?

Workmanship warranties can differ widely between solar companies, with coverage typically lasting anywhere between 1 to 10 years, depending on your installer. While inclusions vary between providers, most workmanship warranties will cover installation-related issues such as wiring, roof penetrations, and improperly installed components.

Why do solar panels have warranties?

Warranties serve as a testament to the quality of a product. Companies typically offer superior warranties for products of higher quality. While solar panel failures are exceedingly rare due to their design to endure for decades and withstand harsh weather conditions, occasional errors may still occur.

Product Features: Standardized structure design, menu-type function configuration, photovoltaic charging module, a parallel off-grid switching module, power frequency transformer, and other ...
